***FOR IMMEDIATE RELEASE***

**EDX WIRELESS TEAMS WITH DOCEOTECH FOR WIMAX TRAINING**

**Eugene, Oregon, January 17, 2006** - EDX Wireless LLC has authorized DoceoTech, Inc. to incorporate EDX® SignalPro® radio network planning and design software into its WiMAX training program.

Under the terms of the agreement, DoceoTech will use EDX® SignalPro® products in its WiMAX Network Designer™ professional certification training program. In addition, EDX is a reseller of DoceoTech training courses.

“Our WiMAX customers need the ability to climb the technology learning curve rapidly. The newly forged relationship between EDX and DoceoTech will offer them an opportunity to learn the technology with the tool they use daily,” said Paul Rathgeb, CEO of EDX Wireless.

“Our students want to expand their design skills, and demonstrate their design expertise to their customers, through the WiMAX Network Designer certification program,” added John Swart, President of DoceoTech. “The practical experience they gain in class from using the EDX® SignalPro® software is a key element of their design training.”

The companies have agreed to cross-train members of their staff to ensure an effective program for their respective customers.

**ABOUT EDX Wireless LLC**

EDX network design tools are some of the most widely-used engineering software products for designing wireless communications networks, including wireless broadband, WiFi, WiMAX, public safety, cellular/PCS, and mobile radio of all types. This mature suite of tools is the result of over 20 years of development effort, including the pioneering of some of the most important innovations in propagation modeling such as ray-tracing and other site-specific physical modeling techniques. These highly accurate propagation and planning tools have been used in more than 55 countries worldwide, for the successful design and deployment of wireless networks. For more information, see [www.edx.com](http://www.edx.com).

**ABOUT DoceoTech, Inc.**

DoceoTech, Incorporated is a Danville, California provider of technical knowledge-transfer solutions in the fields of IEEE 802.xx Wireless Standards, Voice over IP, and Radio Frequency Identification technology. DoceoTech distributes classroom and e-learning programs in the Americas, Europe and Asia through a network of resellers and training delivery partners. DoceoTech's faculty are listed authors of 55 patents, have written five IEEE Press reference books, and are principal creators and authors of the technologies and standards in their fields of concentration. For more information, see [www.doceotech.com](http://www.doceotech.com).
